EDUCATION

Modern Web Development

University of Helsinki

2024

Helsinki, FIN

Bachelor of Management Science - Accounting

Adekunle Ajasin University

2023

Ondo State, NIG

SKILLS

Programming Languages JavaScript | Node.js | HTML | CSS | C# | TypeScript

Technologies React.js | Next.js | MongoDB | Express | TailwindCSS | PostgreSQL

EXPERIENCE

Therapie

Feb 2024 - June 2024

Full-Stack Developer

Volunteer

- Led the development of a comprehensive therapy platform, overseeing both frontend and backend architecture from conception to deployment.
- Implemented caching mechanisms to optimize application performance, resulting in reduced load times and improved user satisfaction and prioritized web security measures throughout the development process, implementing best practices and security protocols to safeguard user data and privacy.
- Ensured software quality by conducting unit and integration tests as well as improving application performance by optimizing code and reducing load time.
- Demonstrated proficiency in fullstack development, including but not limited to JavaScript frameworks (React.js and Node.js), postgresSQL, RESTful API, and version control systems (Git).

100Devs

May 2023 - Present

Full-Stack Developer

Remote - Boston, MA

- Collaborated with a team of developers to build modern and responsive fullstack web applications using best practices
- Collaborated with cross-functional teams to troubleshoot and resolve software issues and utilized Agile methodology to manage project timelines and deliverables.
- Ensured software quality by conducting unit and integration tests as well as improving application performance by optimizing code and reducing load time.

Pat Akinwumi and Associates

Aug 2021 - Oct 2022

Junior Accountant / Auditor

Part time

- Performed in a Federal Audit of the financial transactions of INEC offices in Nigeria (Ogun and Lagos State)
- Automated monthly tax notifications and messages to clients enhancing communication efficiency and timeliness.
- Introduced innovative software facilitating seamless document and file sharing within the office, streamlining collaboration and enhancing productivity.
- Constantly took charge of online activities, overseeing various digital operations to maintain a smooth and efficient online presence for the firm.

NOTABLE PROJECTS

SnapCase

FullStack

SnapCase is a web application that allows users to import a picture and order a custom phone case with the picture as the case cover. I built this to showcase my mastery in building industry standard web applications with beautiful user interfaces and writing high quality code as well as my expertise with TypeScript. A really challenging and time consuming project but i learned a lot through the difficulties in implementing it's many features. The project is available at: <https://github.com/FinzyPHINZY/snapcase>

FinzyStore

Frontend

FinzyStore is a minimalistic e-commerce web application built with React, TypeScript, and Tailwind CSS. It allows users to browse products, add them to their cart, and manage their shopping cart. This project is available at: <https://github.com/FinzyPHINZY/finzystore>

Other Projects

Fullstack, Frontend, Backend

All other projects are available on my [GitHub](#). They exemplify my diligence, hard work, and dedication to leveraging every learning opportunity. Each project showcases my ability to tackle challenges, learn new technologies, and produce quality work. I continuously strive to improve my skills and contribute meaningfully to the tech community. Explore my projects to see firsthand my commitment and resolve to excellence and innovation. <https://github.com/FinzyPHINZY/>
